

SUNNEX RLM 22W

Sunnex RLM is a magnifying light with superior light intensity for detailed inspection. The magnification is 5 diopter (2,25X) and the light source is a 22W fluorescent ring light with low heat emission. The arm has adjustable joints for easy and safe positioning, and two versions are offered, a c-clamp version and a mobile version. As an option there is an add-on lens (2,25X) available. Sunnex RLM is pure in style, easy to keep clean and takes up little room.

Applications

- Inspection Work
- Assembly Work
- Laboratories
- Workbenches

Benefits

- Magnification 2.25 times
- Adjustable joints in arm
- Adjustable lamp head
- Low heat emission
